In 2019 Andrew received the International Academy for Dental Facial Esthetics Fellowship. Fellowship in the Academy for Dental Facial Esthetics is by invitation to those members of the dental industry who have distinguished themselves.

## COURSE DESCRIPTION

Are you an informed clinician? The main aim of this presentation is to encourage clinicians to keep up to date with dental products and evidence related to Dentistry. In this lecture Dr. Osafo will discuss ways to slow caries progression, arrest caries and restore teeth.

The aims and objectives for the lecture and workshop:

1. Understand the implications of traditional caries management.
2. Recognise the mechanism and rationale for caries arrest medicaments.
3. Understand how glass ionomers play an important role in minimally invasive dentistry.
4. Use caries arrest medicaments together with a variety of restorative materials.
5. Learn efficient restorative techniques to treat caries.
