

Dr. Sylvia Rahm

BIOGRAPHY

Dr. Sylvia Rahm studied dentistry in Germany and has an own office in Idstein for more than 20 years now. She is specialized in Esthetic Dentistry, Functional Analysis and CMD Treatment, Prosthodontics, Dental Sleep Medicine and Dental Sports Medicine. Therefor she finished post graduated curricula. She has given lectures internationally for more than 10 years.

COURSE DESCRIPTION

The lecture will show esthetic and functional guidelines for anterior composite restorations, so we can rely on that material even in prosthodontic veneering. Therefor you will see concrete examples of restorations and veneering also in orthodontic cases like cone teeth or transforming canines into lateral incisors. We can use composite after preparations or as well in non-prep cases. Focus shall also be on the macro- and microstructure of the natural layered restorations.

During the hands-on training you will be able to test the Brilliant Ever Glow composite for esthetic restorations like veneers and cone tooth.
